The new compounded series FLEX was created based on PRIMULA's research and know-how, setting new standards on the market, since it combines advantages like:

- Low price.
- Advanced rigid construction with low noise, ergonomically controls and height adjustment possibility in four levels.
- Powerful, equally distributed and adjustable suction for impeccable ironing.
- Automatic or semi-automatic function of adjustable blowing air for ironing with no marks and undesirable shines.
- Excellent ironing through the combination of the heated working surface and the powerful suction.
- Chimney for the air removal upwards.
- Iron balance system with lighting installation possibility.
- Swivelarm (in order to put different kind of ironing bucks) with automatic interchange of suction from the working surface to the swivelarm and vice versa.
- Wheels for easier change of position in the working area.

Functional  
kickerplate

Ergonomical  
& functional  
controls

Lever for the  
air regulation  
during the blowing

Height adjustment  
in 4 positions
