Small steam condensor. Unit for steam and power supply from the mains to steam irons, guns, brushes etc. For dry steam, the steam line must be insulated. AD/5 can be connected to steam generators for extra supply. Steam pressure: 3-6bar. Electric voltage: 230V – 50Hz.

Code:.....108-01-000

S-AD

Device for mounting AD/5 to steam generators as a steam outlet.

Code:.....108-01-001

BS

Standing supporting base for K/6/2 Condensor. With protection grid and steam trap position. Adjustable height.

Code:.....108-00-001

TS

K/6/2 Condensor supporting base for ironing tables.

Code:.....108-00-002

STEAM TRAP

Thermodynamic steam trap 1/2".

Code:.....308-00-011

TROLEY BASE

Trolley base for steam generator Magic inox and Atmos

Code:.....103-11-003

TF 1700

Teflon shoe with holding springs. For L1700, ST 1700, IT 1800L and ILE 1800L type steam irons.

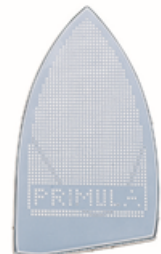

Code:.....107-00-000

TFA 1700/1800 L

Teflon shoe with aluminium frame. For L1700, ST 1700, IT 1800L and ILE 1800L type steam irons.

Code:.....107-00-002

IRON MASTER

Teflon shoe with aluminium frame. For type IRON MASTER & DUEEFE irons.

Code:.....107-00-007

SI 1700 /1800 L

Special INOX shoe for ironing without shines. With holding spring, metal grid sheet and nomex flange for temperature insulation and better application. For L1700, ST 1700, IT 1800L and ILE 1800L type steam irons.

Code:.....107-00-005

TFA 1800 S

Teflon shoe with aluminium frame. For type IT1800S & ILE 1800S steam irons.

Code:.....107-00-018

TFA 1200

Teflon shoe with aluminium frame. For type STC1200 irons.

Code:.....107-00-006

TFA LT

Teflon shoe with aluminium frame. For LT type steam iron.

Code:.....107-00-021
